# About Us

DiaGuru is a proudly Australian-owned healthcare manufacturer, distributor and wholesaler of the DiaGuru range. We have recently launched this company and aim to provide high quality products to our customers around Australia with the help of distributors and resellers.

We are partnered up with international brands to ensure only quality products find their way into your practise.

We believe that high quality isnt mutually exclusive with economic value and are focused at providing you with the best price possible.

- Pack/100

**PACK 100  
CTN - 50**

**D-SYR22****Self Aspirating Syringe; 2.2 mL; Thumb Ring; Harpoon Type**

- The harpoon allows the dentist to aspirate the injection site to ensure the needle tip is in the correct location before injecting the anaesthetic solution.
- This helps dentists to ensure that they are not injecting anaesthetic into a blood vessel, as the harpoon allows the user to check for blood prior to injection.

**EACH**

**D-DG1/1****1:1 Dispensing Gun**

- Dispensing Gun offers reliable performance and durability. Its ergonomic design ensures comfortable handling, while the smooth trigger mechanism allows for controlled and consistent material dispensing.
- Compatible with both 1:1 and 2:1 ratio cartridges, this dispenser gun provides flexibility for a range of dental applications.

**CTN - 50**

## NEEDLES AND SYRINGES
